Sept 10th 1868

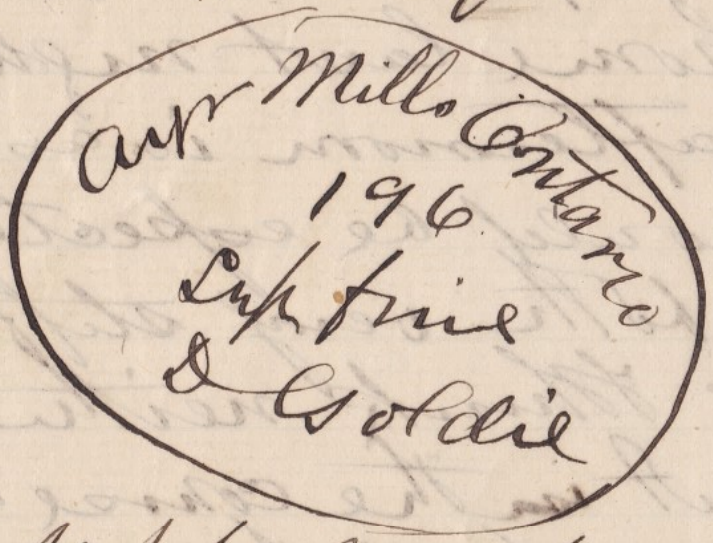
Dear Mother

You would be sorry to hear of the accident to Father & Aunt Steele it was a great wonder they were not both killed on the spot. Father was set home last night & this afternoon is as well as could be expected they are both very stiff & sore but I think neither is so but in the course of a week or two they will get over it Nancy was not to day & she say that you have voted the Mill

If I would have wanted you to go to Montreal in the course of a week or two I would have liked to go with you

if you could put it off as long. I am getting better quite fast. & am now able to get out a little

I would like you to cut me a brand as soon as possible. as follows



I want it for Montreal flour now. The Ayr Mills is a little to file with the space & I think Ontario will be as good as any thing could be put in. if you think of any thing better put it on

I will try & get up to Guelph

on Saturday or beginning of week -

Yours affectionately
D Golden
